

## WINCHESTER REGIONAL AIRPORT

491 AIRPORT ROAD  
WINCHESTER, VIRGINIA 22602  
(540) 662-5786

March 16, 2020

Winchester Regional Airport staff is in contact with local, state, and federal partners on the latest developments regarding the spread of COVID-19 and its impact to our facility. The airport remains committed to its mission of “meeting the aviation needs of the region” while responsibly ensuring the safety of its employees, customers, and community. As of this date, service levels are not reduced, and the following mitigation measures have been implemented:

- The main terminal building is restricted to based pilots, business tenants, or guests for arriving/departing aircraft.
- Public touch points (e.g., coffee, magazines) have been removed and surfaces are being routinely sanitized.
- Meetings in the terminal building conference room are cancelled until further notice.
- The VALOR 5K runway run scheduled for March 28<sup>th</sup> has been cancelled.

Additionally, the airport has an existing agreement with PHI Air Medical, operator of an air ambulance helicopter fleet, for its pilots to use airport equipment to fuel their aircraft. This allows for the continuity of their critical life-saving mission should airport staff be unavailable.

Due to the fluidity of the situation, we encourage you to confirm any arrival or departure information by phone (540) 662-5786 or email [okv.customerservice@comcast.net](mailto:okv.customerservice@comcast.net), and check NOTAMs frequently.

We appreciate your understanding, and will continue to provide updates on airport operations, as necessary.

Thank you,

A handwritten signature in black ink, appearing to read "Nick Sabo".

Nick Sabo, A.A.E.  
Executive Director
